SUMMARY

General Manager and commercial builder: enters new markets, builds the go-to-market engine and the operating model behind it, and wins contracts. Built a new business line to €48M in revenue in 15 months across four segments, winning public tenders and enterprise key accounts, and hiring a 15-person team. Scaled a D2C operating model to eight countries in 12 months (DACH, Iberia, the UK, France, Italy, the Nordics), adopted as the company-wide standard. Engineer by training, native German, with full P&L and pricing ownership. Four industries and four business models in six years: aerospace, biotech, e-commerce and maritime AI, from engineering services to D2C to B2B SaaS, turning technical capability into revenue.

EXPERIENCE

- Jun 25 - Aug 25 **NAVOZYME PTE LTD.** BARCELONA, SPAIN
AI & Blockchain Maritime Tech Scale-Up
MBA Summer Associate – Growth Strategy & Commercialization
- Built the regional expansion playbook for the two core products, mapping the competitive landscape, key accounts, named contacts and buying dynamics market by market, with a rollout sequence per product; in active use by the management team 12+ months on
 - Developed market-entry strategies for two new verticals – pharmaceutical traceability (\$20B) and healthcare credentialing (\$2B) – covering EU, FDA and GCC regulatory routes, ROI models, pilot design and phased rollout roadmaps
 - Owned the go-to-market strategy for an AI-powered maritime SaaS platform: segmentation, pricing architecture and partner/channel strategy across Europe, MENA and APAC; presented to the C-suite (Singaporean founder/CEO, European CCO, US CTO) and board
- Dec 20 - May 24 **EUROFINS SCIENTIFIC SE (ESF0)** HAMBURG, GERMANY (REMOTE)
Global leader in analytical testing services with over 900 labs in 62 countries, annual turnover of EUR 6.5B, 65k+ employees
- Jul 22 - May 24 *General Manager, D2C E-Commerce DACH*
- Appointed by the MD of DACH and VP of Europe to found a new e-commerce business unit from zero; owned the P&L across product strategy, pricing, marketing, fulfilment, customer experience, budgets, demand forecasts and inventory/supply-demand pacing
 - Designed a replicable D2C operating model and scaled it to eight countries in 12 months across DACH, Iberia, the UK, France, Italy and the Nordics; adopted as the company-wide digital-commerce standard across all business units globally, and first to launch in the European group, holding go-live on schedule through a payment-system failure days out
 - Launched nine B2C/D2C self-sampling products by managing 11 stakeholders across R&D, Legal, Marketing, logistics and certification bodies; owned full product lifecycle from launch through steady-state to end-of-life against volume and margin targets
 - Identified an untapped animal-testing niche outside the original mandate and took a new product line from concept to market; negotiated supplier rates below the central purchasing team's to secure first-to-market entry and a profitable new revenue stream
- Aug 21 - Jun 22 *General Manager, New Business Line – COVID-19 Testing*
- Scaled the business line to €48M in 15 months across four segments (education, travel, enterprise, D2C); won key accounts including TUI Cruises, MSC, FIA (Formula 1) and MotoGP, and German state and municipal public-sector contracts; reported to the VP & CCO Europe
 - Hired and led a 15-person international team across Sales, Marketing and Project Management with clear DRIs and delivery deadlines; managed a structured wind-down with every member placed into senior roles at Eurofins, Airbus and beyond
 - Delivered three large-scale programs concurrently: a 175-site testing network built in 8 months (15 directly operated, ~160 partner sites on revenue share), a nationwide twice-weekly daycare programme (10,000 children, 150+ centres), and global F1/MotoGP race-team testing
 - Negotiated internal transfer pricing and SLAs with independent Eurofins lab entities before bidding, setting the unit's contribution margin
- Dec 20 - Jul 21 *Founding Commercial Lead – COVID-19 Testing*
- Founded Eurofins' first cross-divisional business unit in Germany, securing legal registrations, national and local permissions, regulatory approvals and supply agreements and building launch-ready operational infrastructure from scratch – concept to go-live in three months
 - Won exclusive testing rights at Frankfurt and Munich airports through competitive public tender and bid management against corporate and government buyers, running procurement, compliance and stakeholder requirements through to contract award
 - Launched Germany and Austria's first self-sampling test kit, reaching 25% market share and 150,000+ tests processed in 6 months
- May 19 - Dec 20 **AIRBUS SE (AIR) (ON BEHALF OF ALTEN TECHNOLOGY GMBH)** HAMBURG, GERMANY
Engineering service provider, serving multiple industries and part of ALTEN S.A. (annual turnover EUR 4.1B, 54k+ employees)
Project Manager & Engineering Consultant
- Led cross-functional coordination across 20+ stakeholders and 6 departments to reorganize and expand an aircraft production line segment, increasing output by 27% (7 to 9 aircraft/month) and reducing production delays by 13%
 - Built the business case for modularization: 18% production-time reduction, €2.3M projected annual savings; approved by leadership

EDUCATION

- 2024 - 2026 **IESE BUSINESS SCHOOL** BARCELONA, SPAIN
Master of Business Administration (MBA Program); IESE Trust Scholarship (EUR 20k); Focus: Technology General Management
Core Areas: AI/ML Strategy, Digital Transformation, Strategic Execution, Global Market Expansion, Organizational Leadership
- 2013 - 2018 **HAMBURG UNIVERSITY OF TECHNOLOGY** HAMBURG, GERMANY
B.Sc., Mechanical Engineering, Grade: 2.7 (Good); M.Sc., Product Development, Materials and Production, Grade: 1.8 (Very Good)
Exchange semesters at Nanyang Technological University (Singapore, 2018) and Indian Institute of Technology Madras (India, 2016)
