SUMMARY

General Manager and engineer who builds new markets and business lines from zero. Built a new testing business inside a €6.5B group to €48M revenue in 15 months, winning public tenders and enterprise accounts with a 15-person team; then founded a D2C unit with full P&L and scaled its operating model to eight countries in 12 months. Most recently set the go-to-market strategy for a maritime AI SaaS scale-up during the IESE MBA. Experience spans aerospace/industrial, biotech/healthcare, e-commerce and SaaS/maritime AI, each time turning technical capability into revenue.

EXPERIENCE

Jun 25 - Aug 25 — NAVOZYME PTE LTD. — BARCELONA, SPAIN

AI & Blockchain Maritime Tech Scale-Up

Go-to-Market Strategy Lead (MBA Summer Engagement)

- Owned the go-to-market strategy for an AI-powered maritime SaaS platform: segmentation, pricing architecture and partner/channel strategy across Europe, MENA and APAC; presented to the C-suite (Singaporean founder/CEO, European CCO, US CTO) and board
- Built the regional expansion playbook for both core products: competitive landscape, key accounts, named contacts and buying dynamics by market, with a rollout sequence per product; in use by the management team 12+ months on
- Developed market-entry strategies for two new verticals, pharmaceutical traceability (est. $20B) and healthcare credentialing (est. $2B): EU, FDA and GCC regulatory routes, ROI models, pilot design and phased rollout

Dec 20 - May 24 — EUROFINS SCIENTIFIC SE (ESF0) — HAMBURG, GERMANY (REMOTE)

Global leader in analytical testing services with over 900 labs in 62 countries, annual turnover of EUR 6.5B, 65k+ employees

Jul 22 - May 24 — *General Manager, D2C E-Commerce DACH*

- Appointed by the MD of DACH and VP of Europe to found a new e-commerce business unit from zero; owned the full P&L across product, pricing, marketing, fulfillment, customer experience, budgets and demand forecasts
- Designed a replicable D2C operating model and scaled it to eight countries in 12 months (DACH, Iberia, UK, France, Italy, Nordics); adopted as the company-wide digital-commerce standard; first live in the European group, on time despite a payment failure days out
- Launched nine self-sampling products with 11 stakeholders across R&D, Legal, Marketing, logistics and certification bodies; owned the product lifecycle from launch to end-of-life against volume and margin targets
- Opened an animal-testing product line outside the mandate at ~20% unit margin, with supplier rates negotiated below central purchasing's

Aug 21 - Jun 22 — *General Manager, New Business Line – COVID-19 Testing*

- Scaled the business line to €48M revenue in 15 months as revenue owner across four segments (education, travel, enterprise, D2C); won TUI Cruises, MSC, FIA (Formula 1), MotoGP and German state and municipal contracts; reported to the VP & CCO Europe
- Hired and led a 15-person international team across Sales, Marketing and Project Management with clear DRIs and delivery deadlines; managed a structured wind-down with every member placed into senior roles at Eurofins, Airbus and beyond
- Delivered three programs concurrently: a 175-site testing network in 8 months (15 directly operated, ~160 partner sites on revenue share), a nationwide twice-weekly daycare program (10,000 children, 150+ centers) and global F1/MotoGP race-team testing
- Negotiated internal transfer pricing and SLAs with independent Eurofins lab entities before bidding, setting the unit's contribution margin

Dec 20 - Jul 21 — *Founding Commercial Lead – COVID-19 Testing*

- Founded Eurofins' first cross-divisional business unit in Germany: legal registrations, national and local permits, regulatory approvals, supply agreements and launch-ready operations, from concept to go-live in three months
- Launched Germany and Austria's first self-sampling test kit, reaching 25% market share and 150,000+ tests processed in 6 months
- Won exclusive testing rights at Frankfurt and Munich airports through competitive public tender and bid management, running procurement, compliance and stakeholder requirements through to contract award

May 19 - Dec 20 — AIRBUS SE (AIR) (ON BEHALF OF ALTEN TECHNOLOGY GMBH) — HAMBURG, GERMANY

Engineering service provider, serving multiple industries and part of ALTEN S.A. (annual turnover EUR 4.1B, 54k+ employees)

Project Manager & Engineering Consultant

- Reorganized an A350 production line segment with 20+ stakeholders in 6 departments: output +27% (7 to 9 aircraft/month), delays -13%
- Built a modularization business case: 18% production-time reduction and €2.3M projected annual savings; approved and implemented

EDUCATION

Sep 24 - May 26 — IESE BUSINESS SCHOOL — BARCELONA, SPAIN

Master of Business Administration (MBA); IESE Trust Scholarship (EUR 20k); Focus: Technology General Management

Core Areas: AI/ML Strategy, Digital Transformation, Strategic Execution, Global Market Expansion, Organizational Leadership

2013 - 2018 — HAMBURG UNIVERSITY OF TECHNOLOGY — HAMBURG, GERMANY

M.Sc., Product Development, Materials and Production, Grade: 1.8 (Very Good); B.Sc., Mechanical Engineering

Exchange semesters at Nanyang Technological University (Singapore, 2018) and Indian Institute of Technology Madras (India, 2016)

LANGUAGES

German (Native) — English (Fluent, C2)

SKILLS & ADDITIONAL
